Thinking it Through: Adapting 3-8 ELA Module Lessons

Considerations	Your Plans
<p>What are the learning targets? Restate them in your own words.</p>	
<p>Why are you adapting this lesson? What needs do you/your students have?</p>	
<p>What changes do you intend to make?</p> <p>Do these changes maintain students' opportunities to meet the learning targets?</p> <p>Do these changes allow for the maximum rigor for as many students as possible?</p>	
<p>How will you assess students' progress?</p>
