

Fredonia Elementary School Faculty Meeting

December 2, 2015

Please sit with your grade
level or department

Elementary School Mission:

◦ Drive Student Achievement Upward!

Learning Target:

- o I will have a better understanding of vertical alignment of math standards UPK – grade 4
- o Special Area Teachers: I will have a better understanding of how my colleagues are implementing the standards across the curriculum.

Food for thought:

oNumber talks

Grade Level/Dept. Teams

- As a grade level, please review focus standards that warrant review and reflection from first interim assessment (both last year and this year—first quarter assessment)
- As special area teachers, please review how you committed to incorporating the standards in your curriculum

Vertical Teams

- o Please get into vertical teams, as noted on the wall
- o Starting with UPK, as feasible, and Kindergarten, note the math standard your team is addressing and how it is taught vertically, both up and down the grade levels
- o Address the rigor at each level and how your grade level is ensuring focus standards are mastered
- o Special Areas: How are the special area teachers incorporating standards into their curriculum at each grade level?

Exit Ticket

- Note one thing you learned about a math standard from another grade level that will help improve your math instruction
